## **POLICEMEN IN NEW QUARTERS.**

---

### **Officers and Men of the Cottage Grove Avenue Precinct Occupy Their Rebuilt Station.**

The new Cottage Grove avenue police station is completed, and the members of Lieutenant O'Brien's command were duly installed in their new quarters yesterday. The station building is the finest, best appointed, and most expensive among the sub or precinct stations. Chief of Police Kiplew was at the station yesterday when the transfer was made and said he was proud of the new building. It is three stories high and faced with dressed white stone. The old Cottage Grove avenue police station was an eyesore and looked upon as a model of discomfort and inconvenience. The new station building is located on the site of the old one.
